

MARKET COMMENTARY

U.S. markets closed mixed on Thursday (6/25), with DJIA (+0.14%), Nasdaq (-0.46%), and S&P 500 ending broadly flat at (-0.01%). The mixed performance was driven by profit-taking in technology stocks, including a sharp 6% decline in Apple after the company announced price increases for MacBook and iPad products. On the other hand, sentiment was supported by strong earnings from Micron Technology. From the macro side, U.S. core inflation (PCE) for May rose 0.4% MoM and 4.1% YoY, in line with expectations and closely watched by the Federal Reserve. Meanwhile, the U.S. 10-year Treasury yield edged down slightly to 4.396%, while the DXY index also eased to 101.43.

In Europe, the Stoxx 600 advanced (+0.8%), supported by optimism surrounding early-stage peace negotiations between the U.S. and Iran.

In commodities, Brent crude (+1.48%) to USD 74.83 per barrel, while WTI (+2.96%) to USD 71.92 per barrel. Gold (+0.49%), nickel (+0.36%), while coal, CPO, and copper declined (-0.43%), (-1.60%), and (-0.27%), respectively.

Asian markets closed mostly higher on (6/25), with Nikkei (+4.61%), Kospi (+3.34%), Shanghai (+0.23%), and Hang Seng (-1.43%). The Jakarta Composite Index (JCI) (+1.96%) to 5,999.04. Foreign investors recorded a net sell of IDR201 bn in the regular market and IDR97.8 bn in the negotiated market. Meanwhile, the rupiah slightly weakened to IDR 17,925 against the U.S. dollar. We expect the JCI to extend modest gains today, supported by global and regional sentiment as well as rupiah strength.

INAF - Targets production efficiency and portfolio rebalancing as part of FY26 turnaround strategy

Indofarma (INAF) outlined its key strategic priorities for FY26 at an event on 25 Jun '26, centred on lean manufacturing implementation, product portfolio rebalancing, and optimisation of production facilities — particularly for its sterile product and herbal medicine lines. Management noted that FY25 served as a consolidation year, with cost discipline measures beginning to bear results. Net sales reached IDR151.5 bn in FY25, while net loss narrowed 76.7% YoY to IDR77.9 bn from IDR334.5 bn in FY24, driven by a 55.2% reduction in general and administrative expenses, improved operational efficiency, and optimised other income. On the balance sheet, capital deficiency improved to IDR707 bn from IDR1.14 tn, alongside a 58% decline in short-term liabilities. Export sales also grew 11.9% YoY in FY25, while total operating costs were cut by 55.7% as part of the company's ongoing transformation programme. (Source: Kontan)

MEJA - Plans a 45% share swap acquisition of Trimata Coal Perkasa

Harta Djaya Karya (MEJA) provided an update regarding its planned 45% share swap acquisition of Trimata Coal Perkasa (TCP). Currently, TCP is finalizing its FY25 financial audit and has formed preliminary partnerships with mining contractors, infrastructure investors, and potential off takers to support its future commercial operations. Concurrently, the company is conducting a comprehensive due diligence process alongside an independent valuation, and will convene a general meeting of shareholders should the corporate action trigger material or affiliated transaction thresholds. Note that, based on an independent competent person report, TCP holds an estimated 400 mn tons of mineable coal reserves supported by a positive economic feasibility business plan. (Source: Kontan)

CSAP - To disburse IDR22.7 bn in dividends and expand retail networks

Catur Sentosa Adiprana (CSAP) will disburse an IDR22.7 bn cash dividend or IDR4 per share, representing an 18.9% payout ratio from its FY25 net profit. Concurrently, the company plans to continue expanding its Mitra10 and Atria store networks across Java and outside Java, while strengthening its omnichannel strategy to integrate online and offline shopping experiences. Year to date, the company has opened three Mitra10 stores and two Atria stores in Denpasar and Makassar to support its retail business, which accounts for 40% of total sales alongside its 60% distribution segment. In 1Q26, the company posted IDR4.2 tn in revenue (+1.4% YoY) and its net profit grew to IDR20 bn from IDR4 bn in 1Q25. Note that, in FY25, CSAP recorded a 1.5% YoY revenue growth at IDR17.5 tn and its net profit reached IDR120 bn. (Source: EmitenNews)

SMDR – To issue IDR700bn worth of sukuk

Samudera Indonesia (SMDR) plans to issue up to IDR700 bn of Shelf Registration Sukuk Ijarah I Phase III to fund the purchase of three new vessels as part of its expansion strategy. The proceeds of the sukuk will be used to acquire two tanker ships with capacities of 4,000 DWT each and one container vessel with a capacity of 10,100 DWT, aimed at strengthening the company's operational capacity and competitiveness in the shipping and logistics sector. This issuance is part of SMDR's ongoing Sukuk Ijarah Public Offering program, which previously saw Phase I (2023) of IDR550 bn and Phase II (2025) of IDR500 bn. Management noted that this ship procurement was part of the company's >USD300mn capex plan, of which about 25% has been realized, including investment in a shipyard project in Madura—financed partly by sukuk—whose development progress has reached roughly 27% and is targeted for completion by end 2027 (Source: Bisnis).

PZZA - Acquires a 52% stake in Halal Artisan Yummies

Sarimelati Kencana (PZZA) invested IDR10.4 bn to acquire a 52% controlling stake in Halal Artisan Yummies through a new capital injection. This affiliated transaction is part of the company's diversification strategy to expand its revenue streams beyond its core pizza business and minimize reliance on a single product category. The acquisition is expected to serve as a new growth engine to strengthen its market position in the competitive food and beverage industry without straining its financials. Note that, this immaterial transaction represents around 1.01% of the company's total equity, which stood at IDR1.03 tn in FY25. (Source: Kontan)

RMKE – Allocates IDR116 bn to repay bonds

RMK Energy (RMKE) has notified the Indonesia Stock Exchange (IDX) of its readiness to fully repay Obligasi Berkelanjutan I Tahap I Tahun 2025 Seri A, amounting to IDR116 bn, which is scheduled to mature on 16 July '26. Management stated that the repayment will be fully funded from the company's internal operational cash flow, reflecting financial resilience amid broader coal sector challenges. This is supported by a strong increase in cash and cash equivalents to IDR715.96 bn as of 1Q26, from IDR257.85 bn at FY25. (Source: Kontan)

BRPT – To disburse USD8.5 mn in dividends

Barito Pacific (BRPT) approved a cash dividend of USD8.5 mn, equivalent to 1.7% of FY25 net profit, at its Annual General Meeting of Shareholders (AGM). The company will also allocate USD1.0 mn (0.2% of FY25 net profit) to the statutory reserve, while the remaining USD480.3 mn (98.1%) will be retained to support future business operations. The cum dividend date is scheduled for 3 Jul '26, with dividend payment set for 17 Jul '26. The dividend marks BRPT's first distribution after skipping dividends for FY24. (Source: Kontan)

VERN – Targets three film releases in 2H26F

Verona Indah Pictures (VERN) targets the release of three theatrical films in 2H26, with Dan Bandung scheduled to premiere on 20 Aug '26, followed by two additional titles expected in Oct '26 and Dec '26. Management aims to attract more than 3 mn cumulative viewers across the three films. Beyond theatrical releases, VERN is expanding its content pipeline by developing microdrama, mini-series, and AI-based content while strengthening partnerships with OTT platforms. The company has secured a 12-episode project with Viu for release in Aug '26 and is in discussions with iQIYI and Netflix for future collaborations. Meanwhile, shareholders approved retaining the company's FY25 net profit of IDR5.01 bn to support business expansion, with no dividend declared for FY25. (Source: EmitenNews)

DVLA – Expands wound care services with Mayapada Hospital

Darya-Varia Laboratoria (DVLA) partnered with Mayapada Hospital Bandung to establish a Wound Care Center as part of its strategy to expand access to modern and standardized wound care services. Management noted that the collaboration supports the company's commitment to improving wound care treatment standards in Indonesia through integrated clinical solutions. As part of the partnership, DVLA provides a range of wound care products and technologies, including modern dressings, topical antibiotics, and negative pressure wound therapy (NPWT), to support patient care across various clinical conditions. The initiative is expected to broaden the adoption of modern wound care solutions while strengthening DVLA's presence in the wound care segment. (Source: Kontan)

KAEF – Strengthens local API production to reduce import reliance

Kimia Farma (KAEF) is accelerating the use of domestically produced active pharmaceutical ingredients (API) to reduce import reliance, strengthen Domestic Component Level (TKDN), and expand its portfolio of higher value-added pharmaceutical products. Management noted that expanding domestic API production is intended to mitigate exchange rate volatility and global supply chain disruptions while strengthening the company's upstream pharmaceutical capabilities. The strategy is being implemented through subsidiary PT Kimia Farma Sungwun Pharmacopia (KFSP), which has obtained marketing authorization for pharmaceutical raw materials and currently produces 19 GMP-certified APIs to support import substitution. (Source: Kontan)

HOKI – Diversifying through Dailymeal products

Buyung Poetra Sembada (HOKI) is reducing its reliance on the regular premium rice segment, where price increases are constrained by government-imposed retail price ceilings (HET). The company is shifting its focus toward higher-margin healthy food products under its Dailymeal brand, including Supernasi Zero Sugar, Porang Rice, Corn Rice, and Cassava Rice. To support this strategy, HOKI has commenced operations at its new Central Java plant, which has been operational since 2H25. (Source : Emiten News)
